

TEST\_CASE

```
graph LR; A[TEST_CASE] --> B[EnemyLogic::getEnemyBullet  
LogicVector];
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is shaded gray and contains the text 'TEST\_CASE'. A blue arrow points from the right side of this box to the left side of a larger, white box on the right. This right box contains the text 'EnemyLogic::getEnemyBullet' on the top line and 'LogicVector' on the bottom line.
